

MCTS: Windows Server 2008 (1 Exams)

PLAN	COURSE NUMBER	COURSE TITLE	TRAINING TIME	CORRESPONDING EXAM
Students must pass One of these Windows 2008 Server exams:	ST49127	Configuring Microsoft Server 2008	5 Days	Exam 70-640
	ST49128	Microsoft Server 2008 Network Infrastructure	5 Days	Exam 70-642
	ST49129	Microsoft Server 2008 Applications Platform	5 Days	Exam 643

Three Microsoft Certified Technology Specialist (MCTS) certifications on Windows Server 2008 demonstrate an IT professional's in-depth, current skills on Active Directory, network infrastructure, or applications infrastructure.

You are only required to pass one exam, making it possible for you to earn a meaningful certification within your time constraints and budget.

An MCTS certification focuses on only one technology area, so it validates your in-depth technical knowledge.
